

Rhythm Recap - Can you write your own rhythmic patterns using 'Coffee' and 'Tea'?

Watch this video from the Shropshire music service team to recap our learning about rhythm

Rhythm 1 Tea and Coffee - Music and Minds - YouTube

- *Remember – Coffee is 2 notes that go together to make 1 beat, It is written like this* ♫ *.We call these quavers.*
- *Tea is 1 beat on its own, It is written like this* ♩ *.We call these crotchets.*

Let's try a 4 beat pattern to get us started – pick a coffee (♫) or tea (♩) to go in each square.

Try to clap or play your rhythm, don't forget that quavers last for ½ a beat and crotchets last for a whole beat.

Now try to write another 2 patterns, could you try leaving some boxes blank to act as rests (silent beats)?

Can you clap this pattern? Could you try playing it on an instrument if you have one? An old saucepan and a wooden spoon handle can work well too!
