SEND Local Offer Feedback Survey

The Shropshire SEN Team are keen to have the views of parent carers and practitioners on what they think of the SENDS local offer website. They would be grateful if any parent/carer with children with special educational needs could spend a few minutes completing a survey about what they like/dislike about the website.
The survey results will help the SEN Team understand if the information on the website is accessible, what you like/dislike, and if there are any gaps that need addressing.
